

2011 - Savannah, GA

Breakfast Seminar 1	Induced Pluripotent Stem Cells in Child Neurology: New Tools, New Hope?	Kevin C. Ess, MD, PhD; Kennedy Ctr for Research on Human Development, Nashville, TN
Breakfast Seminar 2	The Foregoing of Life Sustaining Treatment: Ethical Issues	Leon Epstein, MD; Children's Memorial Hospital, Chicago, IL
Breakfast Seminar 3	Advances in MRI Imaging in Epilepsy	Mohamad Mikati, MD; Duke University Medical Center, Durham, NC
Breakfast Seminar 4	An Update on Genetics for the Child Neurologist	Andrea Gropman, MD; Children's National Medical Center, Washington, DC
Breakfast Seminar 5	Circadian Patterns to Pediatric Neurologic Disorders	Sanjeev V. Kothare, MD; Children's Hospital of Boston, Boston, MA
Breakfast Seminar 6	Managing Severe Pediatric Movement Disorders	Rebecca K. Lehman, MD; Medical University of South Carolina, Charleston, SC
Breakfast Seminar 7	Non-invasive Brain Stimulation in Children: neurophysiology and therapeutics	Adam Kirton, MDCM; Alberta Children's Hospital, Calgary, AB
Breakfast Seminar 8	Neurologic Sequelae of Pediatric Brain Tumors	Nicole Ullrich, MD; Children's Hospital of Boston, Boston, MA
Breakfast Seminar 9	Autism: a practical review for the practitioner	Ann M. Neumeyer, MD; Massachusetts General Hospital, Boston, MA
Junior Member Career Development Seminar	Becoming a Child Neurologist: a 40-year retrospective	Steven Miller, MDCM, University of British Columbia, Vancouver, BC
Hower Award Lecture	Research that has Changed Clinical Practice in Child Neurology	Deborah Hirtz, MD; NINDS, Bethesda, MD
Philip R. Dodge Young Investigator Award Lecture	Congenital Myopathies: swimming toward treatment	James Dowling, MD, PhD; University of Michigan, Ann Arbor, MI
Bernard Sachs Lecture	Adaptive Connectivity in Developing Brain	Laura Ment, MD; Yale University School of Medicine, New Haven, CT
Symposium I: NDC Symposium	Childhood Ataxia	Bernard Maria, MD; Medical College of Georgia, Augusta, GA
Symposium II: Presidential Symposium	A New Look at Neuroinflammation	Donna Ferriero, MD, President; UCSF, San Francisco, CA; Steven Miller, MDCM, University of British Columbia, Vancouver, BC;
Symposium III	Saving the Brain: Opportunities in Pediatric Neurocritical Care	Mark S. Wainwright, MD, PhD; Northwestern University Feinberg School of Medicine, Chicago, IL
Symposium IV	Muscle and Neuromuscular Junction Disease of Infancy	Katherine Mathews, MD; University of Iowa, Iowa City, IA
Symposium V	Progressive Encephalopathies in Children: international perspective	Kenneth Mack, MD, PhD; Mayo Clinic, Rochester, MN

2010 - Providence, RI

Breakfast Seminar 1	Update on autoimmune neuromuscular disorders	Peter B. Kang, MD, Children's Hospital of Boston, Boston, MA
Breakfast Seminar 2	Neurocritical Care for Neonates	Hannah Glass, MD, UCSF, San Francisco, CA
Breakfast Seminar 3	Bioethics for Child Neurologists	Leon Epstein, MD, Children's Memorial Hospital, Chicago, IL
Breakfast Seminar 4	Vascular Anomalies in the Brain	Mustafa Sahin, MD, PhD, Children's Hospital of Boston, Boston, MA
Breakfast Seminar 5	NIH Childhood Absence Epilepsy Study: Results and Implications for Clinical Care	Tracy A. Glauser, MD, Children's Hospital of Cincinnati, Cincinnati, OH
Breakfast Seminar 6	New Therapeutics for Children and Young Adults with Neurofibromatosis Type 1 and 2	Roger J. Packer, MD, Children's National Medical Center, Washington, DC
Breakfast Seminar 7	Future directions in pediatric demyelinating disorders	E Anne Yeh, MD, SUNY Buffalo, Buffalo, NY
Breakfast Seminar 8	Down Syndrome: A Link Between Development and Aging	Ira T. Lott, MD; Children's Hospital of Orange County, Orange, CA
Breakfast Seminar 9	Pediatric Status Epilepticus bench to bedside	Kevin Chapman, MD, Barrow Neurological Institute, Phoenix AZ
Junior Member Career Development Seminar	Meet the Editors	Meredith Golomb, MD; University of Indiana, Indianapolis, IN
Hower Award Lecture	Rett Syndrome: A Scientist/Clinician's Perspective	Sakkubai Naidu, MD, Kennedy Krieger Institute, Baltimore, MD
Philip R. Dodge Young Investigator Award Lecture	Dissecting Central Deafness: Developmental interdependencies of Central Auditory Neurons	Stephen Maricich, MD, PhD, Case Western Reserve University, Cleveland, OH
Bernard Sachs Lecture	The Neurons and Networks of Spinal Motor Control	Thomas Jessell, PhD, Columbia University, New York, NY
Symposium I: NDC Symposium	Cerebrovascular Disease	Bernard L. Maria, MD, MBA, Medical College of Georgia, Augusta, GA
Symposium II: Presidential Symposium	Brain Connectivity in Child Neurology	Donna Ferriero, MD, (CNS President), UCSF, San Francisco, CA; Steven Miller, MDCM, University of British Columbia, Vancouver, BC
Symposium III	The genetic link from infantile spasms to autism and allied neurodevelopmental disorders	William B. Dobyns; Seattle Children's Research Institute, Seattle, WA
Symposium IV	Congenital and Perinatal Viral Infections: New Concepts in Diagnosis, Management and Pathogenesis	Daniel Bonthius, MD, PhD, Iowa Children's Hospital, Iowa City, IA
Symposium V	It's Not All Fun and Games: Understanding Sports Concussions from Pathophysiology to Clinical Care	Christopher C. Giza, M.D., Mattel Children's Hospital and UCLA Brain Injury Research Center, Los Angeles, CA

2009 - Louisville, KY

Breakfast 1	Early Onset Epilepsy: Genetic Advances and Expanding Phenotypes	Sumit Parikh, MD, Cleveland Clinic, Cleveland Ohio
Breakfast 2	Autonomic Nervous System Dysfunction in Children	Imad Jarjour, MD, Baylor College of Medicine, Houston, TX
Breakfast 3	"I found what I wasn't looking for on an unnecessary test. Now, I don't want to tell anyone. Do I have to?"	William Graf, MD, Children's Mercy Hospital, Kansas City, MO
Breakfast 4	The Emerging Field of Fetal Neurology	Gary Clark, MD, Baylor College of Medicine, Houston, TX; Adre du Plessis, MbChB, MPH, Boston Children's Hospital, Boston, MA
Breakfast 5	ADHD and Autism in the 21st Century: DSM-5 Issues	Max Wiznitzer, M.D., Rainbow Babies & Childrens Hospital, Cleveland, OH
Breakfast 6	Future Directions in Diagnosis and Treatment of Leukodystrophies	Joshua Bonkowsky, MD, PhD, University of Utah, Salt Lake City, UT; Florian Eichler, MD, Massachusetts General Hospital, Boston, MA
Breakfast 7	NIH Grant Applications Workshop - Understanding Research Priorities at NIH	Marjorie Garvey, MB, BCH, NIMH, Bethesda, MD; John Porter, MD, NINDS, Bethesda, MD; Melissa Parisi, MD, PhD, NICHD, Bethesda, MD
Breakfast 8	Neuroimaging Abnormalities in Pediatric Epilepsy	Bruce Hermann, PhD, U Wisconsin, Madison, WI; Rochelle Caplan, MD, UCLA, Los Angeles, CA
Breakfast 9	The Evaluation and Management of Pediatric Stroke	Susan L. Benedict, MD, University of Utah, Salt Lake City, UT
Breakfast 10	Animal Models to Patients: First Pharmacological Trials of mTOR Inhibitors in Tuberous Sclerosis	Mustafa Sahin, MD, PhD, Boston Children's Hospital, Boston, MA
Hower Award Lecture	Treasured Children with Neurological Diseases: What happens to them in adult life:	Peter Camfield, MD; IWK Health Centre, Halifax, NS
Philip R. Dodge Young Investigator Award Lecture	Autonomic Dysfunction and Rett Syndrome	Jeffrey Neul, MD; Baylor College of Medicine, Houston, TX
Bernard Sachs Lecture	Why are Children with Epileptic Encephalopathies Encephalopathic?	Gregory Holmes, MD; Dartmouth Hitchcock Medical Center, New Lebanon, NH
Symposium I: NDC Symposium	Muscular Dystrophy	Bernard Maria, MD; Medical University of South Carolina, Charleston, SC
Symposium II: Presidential Symposium	Movement/Motor Disorders in Children with Cerebral Palsy	John Bodensteiner, MD, President; Barrow Neurological Inst, Phoenix, AZ; Vinodh Narayanan, MD, Barrow Neurological Inst., Phoenix, AZ
Symposium III	A Developmental Systems and Cognitive Neuroscience Approach to Tourette Syndrome	Bradley L. Schlaggar, MD, PhD, Washington University School of Medicine, St. Louis, MO
Symposium IV	Stress and the Developing Brain: Consequences and Mechanisms	Tallie Z. Baram, MD, PhD, UC Irvine, Irvine, CA
Symposium V	Nocturnal Events in Children (seizures vs parasomnia): the Science behind Evaluation and Intervention Strategies	Sanjeev V. Kothare, MD, Boston Children's Hospital, Boston, MA; Suresh Kotagel, MD, Mayo Clinic, Rochester, MN

2008 - Santa Clara, CA

Breakfast 1	Migraine: Biology, Pathophysiology and Treatment	Alma R. Bicknese, MD, St. Louis University Med School, St. Louis, MO
Breakfast 2	Neuroimaging of neurogenetic and neurometabolic disorders	Andrea Gropman, MD, Children's National Med Ctr, Washington, DC
Breakfast 3	Future of Epilepsy Therapeutics	Jong M. Rho, MD, Barrow Neurological Institute, Phoenix, AZ
Breakfast 4	Mitochondrial Disease: A Clinician Workshop	Sumit Parikh, MD, Cleveland Clinic, Cleveland, OH
Breakfast 5	Neurological Adverse Events Following Immunization (AEFIs): Sorting the Wheat from the Chaff	Max Wiznitzer, M.D., Rainbow Babies & Childrens Hospital, Cleveland, OH
Breakfast 6	The effects of partial epilepsy and its treatment on cognitive development	William Davis Gaillard MD Children's National Med Ctr, Washington, DC
Breakfast 7	Rationale, Insights and Future Directions: The First Human Neural Stem Cell Trial	Stephen A. Back, MD, PhD, Oregon Health Sciences Center, Portland, OR
Breakfast 8	Responding to Phone Calls: Telephone Triage and the Health Care Provider Telephone Visit Appointment	Julie Sprague-McRae MS, CPNP, RN; Kaiser Permanente Medical Group; Fremont, California
Breakfast 9	The Silent Epidemic of Pediatric Traumatic Brain Injury: Advances in Management and Emerging Treatment Options	Christopher C. Giza, MD, UCLA, Los Angeles, CA
Hower Award Lecture	Why Child Neurologists are not Little Adult Neurologists: An overview of the development of a subspecialty	Stephen Ashwal, MD; Loma Linda University School of Medicine, Loma Linda, CA
Philip R. Dodge Young Investigator Award Lecture	Disruption of Normal Developmental GABA-A Receptor Subunit Expression in Pediatric Epilepsy	Laura Jansen, MD, PhD; Seattle Children's Hospital Research Institute, Seattle, WA
Bernard Sachs Lecture	Clinical Disorders of Brain Plasticity	Michael V. Johnston, MD; Kennedy Krieger Institute, Baltimore, MD
Symposium I: NDC Symposium	Injury to the Preterm Brain and Cerebral Palsy	Bernard Maria, MD; Medical University of South Carolina, Charleston, SC
Symposium II: Presidential Symposium	Ion Channelopathies	John Bodensteiner, MD, President; Barrow Neurological Inst, Phoenix, AZ; Vinodh Narayanan, MD, Barrow Neurological Inst., Phoenix, AZ
Symposium III	Neurocardiology: The Interface of Neurology and Cardiology	Neil Friedman, MD, Cleveland Clinic, Cleveland, OH
Symposium IV	Growth and patterning of the developing brain: From science to clinical practice	Ganeshwaran H. Mochida, M.D., M.M.Sc. Beth Israel Deaconess Medical Center, Massachusetts General Hospital, Boston, MA
Symposium V	Neonatal seizures and neuroprotection	Joseph Sullivan, MD, UCSF, San Francisco, CA and Dennis J. Dlugos, MD, Children's Hospital of Philadelphia, Philadelphia, PA

2007 - Quebec City

Breakfast 1	Catastrophic Epilepsies in Children -Update on Clinical and Basic Science Advances	Carl Stafstrom, MD, PhD, University of Wisconsin, Madison, WI
Breakfast 2	Developmental Screening and Evaluation: Ne Processes, New Measures, New Projects	Paul H. Lipkin, MD, Kennedy Krieger Institute, Baltimore, MD
Breakfast 3	Nursing Research: Design Models and Funding Opportunities	Elizabeth Hobdell, PhD, CRNP, CNRN, St. Christopher Hospital for Children, Philadelphia, PA
Breakfast 4	From Febrile Seizures to Temporal Lobe Epilepsy: Is there a Link?	Shlomo Shinnar, MD, PhD, Montefiore Medical Center, Bronx, NY
Breakfast 5	The Future of the Ketogenic Diet	Eric Kossoff, MD, Johns Hopkins University Hospitals, Baltimore, MD
Breakfast 6	The Pediatric Neurologist as an Effective Medical Educator	Paul Larsen, MD, Nebraska Medical Center, Omaha, NE
Breakfast 7	Update on the Muscular Dystrophies	Peter Kang, MD, Boston Children's Hospital, Boston, MA
Breakfast 8	Developmental Neurotoxicity	Maitreyi Mazumdar, MD, MPH, Boston Children's Hospital, Boston, MA
Breakfast 9	Ethical Issues Regarding Neurology in Neonatal Intensive Care Brief	Daniel Glaze, MD, Baylor College of Medicine, Houston, TX
Hower Award Lecture	Heart, Brain, Muscle, Bricks: Teaching Neurology in the 21st Century	Robert S. Rust, MD, MA; University of Virginia, Charlottesville, VA
Philip R. Dodge Young Investigator Award Lecture	Neural Progenitor Cell Role in the Development of Mental Retardation	Mirjana Maletic-Savatic, MD, PhD; SUNY Stony Brook, Stony Brook, NY
Bernard Sachs Lecture	A Life in Pediatric Neurology	Frederick Andermann, OC, MD, FRCP; McGill University, Montreal, QC
Symposium I: NDC Symposium	Tumors of the Central Nervous System	Bernard L. Maria, MD, MBA, Medical University of South Carolina, Columbia, SC
Symposium II:	Neurology of Great Musicians: In Words and Music	Phillip Pearl, MD, Children's National Medical Center, Washington, DC
Symposium III: Presidential Symposium	Presidential Symposium: Novel Pathogenic Mechanisms Suggest Potential for Therapy of Neurodevelopmental Disorders	Huda Zoghbi, MD, Baylor College of Medicine, Houston, TX; Gary Clark, MD, Baylor College of Medicine, Houston, TX
Symposium IV	Genetics for Pediatric Neurologists	Andrea Gropman, MD, Children's National Medical Center, Washington, DC
Symposium V	Sorting Through the Spectrum of Pediatric Demyelinating Disease	Jayne Ness, MD, Children's Hospital of Alabama, Birmingham, AL
