Learning Objectives of 2016 CNS Scientific Program

The CNS Scientific Program is designed by and is primarily intended for child neurologists and professionals in other fields of study related to neurologic and developmental disorders in children and adolescents. “As a result of attending this meeting the physician will be better able to care for children with neurological disease through an understanding of recent advances in neuroscience, neuro-diagnostics and therapeutics relevant to child neurology.”
This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Minnesota Medical Association and the Child Neurology Society. The Minnesota Medical Association is accredited by the ACCME to provide continuing medical education for physicians.

MMA designates this educational activity for a maximum of 31.75 AMA PRA Category 1 credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.
