

E-CONNECTIONS

Bringing CNS Members Together to Make Children's Lives Better

The Child Neurology Society (CNS) proudly announces the appointment of two new Councilors to its Board of Directors. **Yasmin Khakoo, MD, FAAN, FAAP**, and **Soe Mar, MD**, Councilor for the East, and Councilor for the Midwest, respectively, will each begin their two-year term on Friday, October 6, at the 52nd CNS Annual Meeting in Vancouver, BC, Canada.

Selected by the CNS Nominating Committee and elected by their fellow active CNS members, **Drs. Yasmin Khakoo and Soe Mar** replace outgoing Councilors Janet Soul, MD (East) and Sucheta Joshi, MD (Midwest).

“Having been selected as councilor for the Midwest, I hope to bring an honest, creative, and transparent style to the task of protecting, promoting, and teaching our discipline to the benefit of humanity and those who carry the torch of knowledge forward,” said Dr. Soe Mar.

“I’m honored to have been elected to the CNS Board of Directors as Councilor for the East. I appreciate the opportunity to continue shaping the mission of our society, partner with others (AAN, AAP, AES, ANA, etc.), and ensure that the next generation is equipped to lead. In the words of Khalil Gibran, “We are limited, not by our abilities, but by our vision,” said Dr. Khakoo.

The CNS Board of Directors comprises four councilor directors and three officers who govern the Child Neurology Society. Collectively, they ensure that all CNS activities are focused on the society's mission, strategic plan, and organizational priorities and work to oversee its finances.

As of October 6, 2023, the CNS Board of Directors includes:

Peter Kang, MD – President
Bruce Cohen, MD – Immediate Past President
Lori Jordan, MD – Secretary-Treasurer
Diana Cejas, MD, MPH – Councilor for the South
Alison Christy, MD, PhD – Councilor for the West

About Child Neurology Society

The Child Neurology Society (CNS) is the professional home of physicians specializing in pediatric neurology from the U.S., Canada, and around the world. Founded in 1972 – just three years after the American Board of Psychiatry and Neurology awarded the first board certification in neurology with special qualifications in child neurology – the society’s mission is to connect pediatric neurologists and advance the field of child neurology through education, collaboration, and mentorship. With nearly 3,000 members worldwide, CNS stands on the belief that every member counts because every child counts. To learn more, visit childneurologysociety.org.
