

# E-CONNECTIONS

Bringing CNS Members Together to Make Children's Lives Better

Dear Colleague,

We are pleased to announce the proposed merger between the Child Neurology Society (CNS) and the Professors and Educators of Child Neurology (PECN) has been accepted.

This decision was made by you, our members, and we are grateful for your thoughtful consideration. We say it all the time: Every member counts because every child counts. By exercising your membership right to vote, we know you believe this to be true, too.

"The logistical and economic advantages of this merger are obvious," says CNS President Bruce Cohen, MD. "But more importantly, bringing PECN into the CNS fold allows us to deliver one unified voice within the child neurology community that will benefit clinicians and patients alike. Simply put, the outstanding programming created by the PECN will now be a benefit to all CNS members, not just PECN members. We are stronger together."

PECN President Soe Mar, MD, agrees. "Working with CNS will only strengthen our capabilities and reach. The leadership of the newly formed PECN CNS committee will continue to do the important work of training and educating the next generation of child neurologists with expanded collaboration and insight."

More information about logistics and effective changes will be shared in the weeks to come and at the upcoming 52nd Annual Meeting (have you **registered**?). In the meantime, continue to stay involved. Our future is bright, and we're excited to have your continued support.

Best,

Bruce Cohen, MD  
President, Child Neurology Society

Soe Mar, MD  
President, Professors and Educators  
of Child Neurology

## Child Neurology Society

The professional home of child neurologists  
from the U.S., Canada, and around the world
