

EARLY REGISTRATION CLOSES TODAY!

Please join us in beautiful San Diego, Nov 11-14, 2024, for the 53rd Annual Meeting of the Child Neurology Society!

This meeting is a must-attend event because:

1. **It has something for everyone!** We learned from your feedback that you wanted MORE content and MORE options - we're giving that to you. This year, all our content is delivered along three concurrent tracks: Clinical Practice, Research Advances, and Leadership and Career Development. You can mix and match sessions or stay on one track. You can also choose between discussion or didactic learning styles - there is truly something for everyone.
2. **It has more sessions and CME than any previous CNS meeting.** For the first time ever, our Platform Sessions, which feature the top 7% of all submitted scientific abstracts, will receive CME credit.
3. **The Year in Review Symposium is a one-stop shop.** This session has speakers covering high-yield content in each child neurology subspecialty AND, new this year; this Symposium will also include abstract summaries from the American Epilepsy Society (AES), American Neurological Association (ANA), and the American Academy of Cerebral Palsy and Developmental Medicine (AAPDM).
4. **It features a diverse and large group of speakers.** This year, across all Seminars, Workshops, and Symposia, you will only ever see a person serve as a speaker or moderator once. This is part of our new 1 speaker: 1 session approach to ensure our meeting features the largest number of experts possible from our diverse membership.

...and so much more, including early career and junior member content via Lobby Talks and dedicated Forums, the Clinical Research Workshop, and the Biomedical Writing Workshop!

Don't miss out! Join us in San Diego Nov 11-14 for an Annual Meeting to remember!

Bhooma Aravamuthan, MD, DPhil
(Chair of the CNS Scientific Selection and Program Planning Committee)

Dave Clarke, MBBS
(Co-Chair of the CNS Scientific Selection and Program Planning Committee)
