

Greetings,

You already know that the upcoming 54th Child Neurology Society Annual Meeting is THE place for child neurologists to connect, collaborate, and network, but did you know that you can also learn about the latest scientific advances, discover new techniques and strategies, and earn CME credits?

The CNS Annual Meeting is the premier event for child neurologists and professionals from around the world. This year's event will take place from October 8-11 at the Charlotte Convention Center in Charlotte, NC, and you don't want to miss it.

In addition to unparalleled networking and social opportunities with colleagues from around the world, the four-day scientific program is jam-packed with educational events that will help you grow professionally and elevate your practice, including:

- **Three (3) educational symposia** with topics ranging from a new age in neurogenetics to improving care for the neurology community and a year in review of the top advances in child neurology.
- **Twelve (12) illuminating seminars** digging deep on subjects like pediatric multiple sclerosis, guidelines for continuous EEG in the neonate, telehealth post-pandemic, and changing landscape of autism spectrum disorder, as well as optimizing neuroICU care, migraine disease, AI for enhanced diagnosis in neurology and so much more.
- **Nine (9) interactive workshops** covering clinical research presenting data, humanism during stressful times, discovering mentors, neurological exam en Español, practical management of complex hypertonicity, and more.
- **Twenty (20) special interest groups (SIG)** dive into innovation in child neurology—clinical breakthroughs, surgical insights, mentorship, and care delivery. Highlights include neurocritical care, genetic testing debates, CSF updates, Neuro-Olympics, and more.
- **Four (4) key award lectures** given by this year's recipients of the prestigious Hower Award, Bernard Sachs Award, Martha Bridge Denckla Award, and the Philip R. Dodge Young Investigator Award.

Other key events, like the Kenneth F. Swaiman Opening Address and Awards, the Child Neurology/NDD Educators Symposium, industry symposia and product theaters, junior member forum, the new Genetics Summit, and various other platforms and discussions round out this year's program highlights.

For the full schedule of events, view the Program Brochure below.

Don't miss this once-a-year event! Stay at the forefront of advancements in the field, earn valuable CME credits, connect with colleagues, and contribute to the future of child neurology.
